PROFESSIONAL SUMMARY

Full Stack Product Engineer with 4+ years of experience shipping production software end to end, covering UI, APIs, databases, and AWS infrastructure. Early adopter of agentic AI development: I drive Claude Code and Cursor across the entire product lifecycle to deliver in days what traditionally takes weeks, while personally reviewing and verifying every change. Because agentic workflows remove technology barriers, I ramp up instantly on any stack, from React/Next.js frontends to Java, Node.js, and .NET backends, pairing AI velocity with engineering discipline: testing, clean architecture, and CI/CD. Fast never means fragile.

SKILLS & EXPERTISE

Agentic AI Development:	Claude Code, Cursor, Prompt & Context Engineering, AI-Assisted Code Review & Verification, LLM API Integration
Frontend:	React.js, Next.js 15+, TypeScript, JavaScript (ES6+), HTML5 & CSS3, Tailwind CSS, Responsive UI, Performance Optimization
Backend:	Node.js, Java, Spring Boot, Python, .NET / C#, REST APIs, GraphQL, Medusa.js, Microservices
Databases:	PostgreSQL, MySQL, MongoDB, SQL Server, AWS Aurora / RDS, ETL Pipelines
Cloud & DevOps:	AWS (EC2, S3, Aurora, RDS), CI/CD Pipelines, Docker, PM2, Git & GitHub, Firebase, System Design
Quality & Process:	Automated & Manual Testing, Code Review, Agile/Scrum, HIPAA-Compliant Systems, Zero-Downtime Deployment

WORK EXPERIENCE

Full Stack Software Engineer | [Saransa Media Lab](#) Sep 2025 – Present · Remote

- Rebuilt the delivery workflow around Claude Code and agentic AI to plan, build, test, and review features, cutting delivery time from weeks to days while holding production-quality standards
- Built a multi-game web platform bundling casual games with a unified UI, score tracking, and instant no-install play
- Shipped a short-form video social application in Next.js and React with an infinite-scroll feed, smooth video playback, likes, comments, and user profiles
- Developed a multivendor e-commerce marketplace on Medusa.js + Mercurius with a Next.js storefront: vendor management, catalogs, orders, and payments
- Created responsive, scalable UIs with Next.js 15+, React 18+, and TypeScript, optimized via code-splitting and lazy loading
- Own AWS production infrastructure (EC2, S3, Aurora/RDS) and CI/CD pipelines for automated builds, testing, and zero-downtime deployments; run Node.js services under PM2 with monitoring

Stack: Claude Code · Next.js · React · TypeScript · Medusa.js · Mercurius · GraphQL · Tailwind · Video.js · AWS · CI/CD · PM2

Frontend Developer (React / Next.js) | [Freelance](#) Jun 2024 – Mar 2025 · Remote

- Delivered data-rich admin panels and dashboards with interactive charts for multiple clients in Next.js and React
- Improved UI reliability through cleaner state management and stronger testing practices
- Integrated REST APIs for real-time data and ensured full mobile responsiveness across devices

Stack: Next.js · React · TypeScript · Tailwind CSS · REST APIs · Agile

Full Stack Engineer | [Cedar Gate Technologies](#) Oct 2023 – May 2024 · Lalitpur, Nepal

- Maintained and deployed HIPAA-compliant healthcare data systems serving production users, using React, TypeScript, and Java
- Deployed releases to AWS with minimal downtime and safeguarded MySQL data integrity
- Automated ETL and database workflows with Python, significantly reducing manual effort

Stack: React · TypeScript · Java · Python · SQL · AWS · ETL

Associate Software Engineer | [Agile Solutions \(merojob.com\)](#) Aug 2022 – Jul 2023 · Kathmandu, Nepal

- Implemented Microsoft Dynamics 365 Business Central ERP for multiple clients: custom modules and React-based interfaces in C#, .NET, and AL
- Designed client reporting with SQL Server Reporting Services (SSRS); migrated and validated customer data into MS SQL Server

Stack: C# · .NET · AL · SQL Server · SSRS · React

Quality Analyst Intern | [Inficare](#) Jan 2022 – Jul 2022 · Kathmandu, Nepal

- Executed manual test cases, tracked defects to resolution with developers, and ran post-release testing to verify production stability

EDUCATION

Bachelor (Hons) Computing, Coventry University, UK · Softwarica College of IT and E-Commerce · 2021

Higher Secondary (+2 Science), NEB Nepal · National Integrated College (NIC) · 2018
